**Re: Terminal 1 South Site  
Removal Action Work Plan  
Feasibility Study Report  
ECSI No. 2642**

Dear Mr. Struck:

The Port of Portland (Port) has prepared the Removal Action Work Plan and the Feasibility Study (FS) Report for the Terminal 1 (T1) South Site. The Removal Action Work Plan presents the scope of work for completing removal actions in Area B (Parcel 2) and Area C (Parcel 3) to reduce human health risks from soil contamination and support future site use. The FS evaluates remedial alternatives to reduce risks to human health and the environment associated with contamination on site to acceptable levels.

Three copies of the draft T1 South Removal Action Work Plan and FS Report are submitted to DEQ for prompt review and approval.

Please contact me at (503) 944-7533 with any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Joe Mollusky'.
